

ECLIPSEPOWER

VaultLadder™

Our ladders are specifically designed for the underground vault space where stability, durability and safety are paramount in this environment.

Specialized spaces such as vaults require unique equipment to insure the maximum safety for the users while providing extreme long life through the robust construction.

The Vaultladder comes standard in two adjustable lengths, 6' to 10' and 9' to 16'. Each is available in 18 deg and 9.5 deg incline.

These advanced features are included in all our VaultLadders

**PULL UP AND POSITIVE LOCK
EXTENSION RAILS**

**ADJUSTABLE LEVELING FEET FOR
THE CONCRETE SURFACE**

NON SLIP RUNNERS AND UPRIGHTS

All steel construction

Made in USA
